WORK EXPERIENCE

MOMENTIVE.AI (Makers of **SurveyMonkey**)   Ottawa, ON

Software Engineer I   July 2021 – Present
- Lead representative of my team in a project integrating another team's technology into our platform
- Developing reusable React architecture to allow faster development of future projects
- Active member of our TypeScript guild, improving TS adoption and knowledge across the company
- Contributor to our GraphAPI layer

Full Stack Web Developer Internship   May 2020 – August 2020
- Developed React components for a newly launched product and made use of React hooks
- Used React Testing Library and Jest best practices to ensure high code and test quality

Full Stack Web Developer Internship   May 2019 – August 2019
- Reduced the time support spent on calls by 44% by redesigning the support page using React.JS
- Worked with the client to gather requirements, prioritize them, and create the technical specification

FOKO RETAIL   Ottawa, ON

Full Stack Web Developer Internship   September 2018 – December 2018
- Built Loopback and MongoDB queries, and optimizing existing ones for faster product performance
- Developed Ember.JS components and wrote queries to the backend

KINAXIS   Ottawa, ON

Intern Manager Internship   July 2018 – August 2018
- Managed a team of 4 developer interns to design, build, and deploy a React desk finder app for Kinaxis
- Taught agile methodology and organized weekly sprint demos as well as a final demo to the company

Web Application Developer Internship   January 2018 – July 2018
- Increased code quality and maintainability when writing AngularJS components and Jasmine unit tests
- Refactored RxJS application store to decouple the view and model, following Redux design patterns
- Translated detailed UX specifications into responsive styles using Sass and Material Design principles

TECHNOLOGIES

- **Languages**: JavaScript & TypeScript, Python
- **Frontend**: React, GraphQL, Sass
- **Backend:** Node.JS, Express

EDUCATION

CARLETON UNIVERSITY   Ottawa, ON
